# The Smallprint

- Inclusive minutes can be used to call UK landlines starting 01, 02 and 03, and standard UK mobiles starting 07.
- Inclusive minutes do not include calls to Jersey, Guernsey and Isle of Man, are chargeable.
- Inclusive texts can be used to send a text in the UK to a UK mobile. Inclusive data is 4G in the UK (5G where enabled) and can be used in the UK.
- Calls made through voicemail using the caller return feature are not included in the customer's allowance.
- WiFi Calling is available at no extra charge.
- Unlimited Data fair usage policy: Usage must not exceed 500GB per month twice or more in a 6-month period
- All usage is subject to our general terms and conditions
- UK & EU Out of Bundle data is charged at £5.76 per 250MB
- We have the right to pass on any annual RPI or CPI related price increases imposed by the network
- When using data abroad, you're automatically opted into the £39 Data Spend Cap within our Europe Zone and Rest of the World (ROW), for each monthly billing period

## Fair Use Policy

- Inclusive roaming services in Europe Zone are intended for use during periodic travel and not for customers roaming across foreign networks on a semi-permanent or permanent basis
- If customers use their mobile in the Europe Zone for more than 50% of the time in any 3 month rolling period, they will receive a notification requesting more moderate use of our roaming services.
- If customers' usage in the Europe Zone continues to exceed 50% as described above, over the 2-week period following the first notification, customers will either be charged for use or be barred from using our roaming services.
- Excess usage will be charged at 3p per MB for all data used
- Customers will be notified before charges are applied
- If we suspend or terminate connections in line with the above, we reserve the right to fully claw back any commission paid to Partners for that connection. Unlimited tariffs will be monitored for fair usage policy, 650GB will apply to domestic data traffic. Customers will not be charged for any UK data overage and won't be data throttled on Unlimited Plans. However, customers who regularly exceed 650GB of domestic usage or regularly tether to more than 12 devices in line with our fair usage policy will be investigated. This will help us protect the experience for all our customers.

**For plans with Unlimited data, Data Roaming in the Europe Zone and the Global Roamer Zones will be capped at 35GB per month. Once customers reach this, they can still use data in our Europe Zone and will be charged at £3.29 Ex VAT per 1GB until their monthly allowance renews.**

## Unlimited clause

Unlimited allowances in tariff are truly unlimited for minutes and text messages, however, as per our general terms and conditions Vodafone reserves the right to suspend or terminate connections where it identifies usage which it believes is:

- Outside normal commercial practice
- Made via automated means e.g. SIM Gateway
- Damages or impairs our network
- Fraudulent, abusive, illegal or a nuisance

All of these activities would fall outside of the Fair Usage policy, and such will not be supported by the Mobile Bill Limit Regulation (mobile spend cap). Please see the Mobile Bill Limits and Spend Caps documentation on the iBillie portal for further detail.
